

## Notification – Five Dock

30 October 2020

Sydney Metro is Australia's biggest public transport project.

New metro rail will become the fastest, easiest and most reliable journey between the Sydney and Parramatta CBDs. Sydney Metro West will service the key precincts of Greater Parramatta, Sydney Olympic Park, The Bays and the Sydney CBD.

Metro services started in 2019 in the city's North West with a train every four minutes in the peak. Metro rail will be extended into the CBD and beyond to Bankstown in 2024. Sydney Metro includes new underground CBD stations at Barangaroo, Martin Place and Pitt Street with new metro platforms under Central.

In 2024, Sydney Metro will have 31 stations on a new 66km standalone metro rail system – the biggest urban rail project in Australian history with ultimate capacity for a metro train every two minutes in each direction under the Sydney city centre.

### Utility Investigations: Five Dock

Essential utility investigation work is being undertaken by Sydney Metro West. This work is required to determine the location of underground infrastructure and assist with planning and design surrounding the proposed station at Five Dock.

#### Utility Investigations Second Avenue, East and Waterview Streets (Standard construction hours)

This work will start on Monday **9 November 2020 for up to two weeks**, during standard construction hours 7am to 6pm Monday to Friday, and Saturday 8am-1pm, weather and site conditions permitting. Each investigation site may take 1-2 days to complete.

#### Utility Investigations: Great North Road and East Street (Out-of-hours)

Due to traffic volumes on Great North Road, this work will be done outside standard construction hours between 6pm and 4am starting on Sunday **15 November 2020 for up to four weeks**, weather and site conditions permitting. Each investigation site may take 3-4 days to complete.

The work on East Street will be done on Saturday **7** and Saturday **14 November 2020**, outside standard construction hours between 1pm - 6pm, weather and site conditions permitting. Please see map overleaf to inform the locations for these works.

#### Work will involve:

- Establishing a temporary site with site fencing
- Removal of concrete and asphalt with bob-saw
- Removing spoil from site using a vacuum excavation truck
- Excavating trenches and recording underground infrastructure locations.

**What to expect:**

- Traffic control and directional signage will be in place for the safety of workers and the community
- Access to buildings and driveways will be maintained at all times
- Parking may be temporarily restricted in some locations
- Some of the activities are expected to be noisy, the team will minimise impacts where possible
- There will be no impact to utility services in the area
- The area will be reinstated at the completion of the work.

**Equipment used:**

Equipment used for our day and night work includes but is not limited to; excavators, bob-saws, vacuum trucks, hand tools, temporary fencing, light vehicles, asphaltting machines and generators.

**Changes to traffic pedestrian and cyclist routes:**

During the work, traffic control will be in place to assist motorists, pedestrians and cyclists with any changes to traffic conditions. This may include contraflow traffic flow, stop-slow traffic controls, or partial road closures. The times of these changes will vary and are dependent on road authority approvals.
